2.2 The balance sheet The balance sheet lists the company's assets and liabilities. Notes to the financial statements are an integral part of the statements, as they show details about compensation plans based on shares, leases, principal debt payments and many other items. Alternative examples to selected textbook examples are also available in PowerPoint lecture slides and are also referenced in bold. 2.7 Financial reporting in practice There have been several recent abuses of financial rules, including Enron and Worldcom. A© 2017 Pearson Education, Inc. 2.4 The declaration of cash flows The statement of cash flows converts income based on accretion into cash flow. 2.1 Disclosure of Financial Information The four statements required by the U.S. Securities and Exchange Commission (SEC) the balance, the demonstration of the result, the demonstration of cash flows and the declaration of shareholders. Full archive at Full archive at Berk/DeMarzo Á Corporate Finance, Fourth Edition 7 shares (and diluted earnings per share) are often calculated to assess the size of net earnings relative to that of similar companies. 2-4 Discuss the uses of DuPont Identity in ROE disaggregation and assess the impact of increases and decreases on identity components in ROE IV. 2-7 Explain what is included in the management discussion and analysis section of financial statements that do not can be found nowhere else in the financial statements. Chapter Overview This chapter reviews the four main financial statements and discusses some useful financial indices. Leverage is often assessed using indices such as interest hedging, which is also a mixed relationship. This section of the text discusses the calculation of profits of the components of the income statement. 2-6 Distinguish between cash flow, as reported in the statement of cash flows, and year-based income, as reported in the statement of profit or loss; discuss the importance of cash flows for investors in relation to year-based income.
